"Full stack developer and Data Scientist with hands on experience in python, java, web development technologies. Adept in Machine Learning, Web Application Development, and Software Testing. Seeking opportunities to leverage my skills in advanced analytics and web solutions."

INTERNSHIP

DATA SCIENCE AND MACHINE LEARNING USING PYTHON
Idatalytics – Infopark, kochi
MAY 2023 - AUG 2023

- Gained Hands on Experience on working with Dataset, EDA and Various Machine Learning Algorithms
- Gained Hands on Experience in Data Visualization using PowerBI, JUpyter Notebook and various python Libraries and web app development using streamlit
- Earned expertise understandings in data with statistics and Visualization
- Demonstration of Various Data Visualization methods
- Gained hands on experience in full stack web development using python flask framework with HTML, CSS, JavaScript, MySQL, Machine Learning

JAVA FULL STACK DEVELOPMENT
Palle Technologies – Bangalore (Online)
FEB 2023 – MAY 2023

- Actively participated in full stack development course
- Gained hands on experience on Java Full Stack Development
- Demonstration of Web Development using HTML, CSS, JavaScript
- Demonstration of Various Operations in MySql

EDUCATION

MASTER OF COMPUTER APPLICATION (MCA)
Nov 2021 - Present
School of Technology And Applied Sciences, Edappally

BACHELOR OF COMPUTER APPLICATION (BCA)
July 2016 - April 2019
Malabar College of Advanced Studies, Vengara

ACADEMIC PROJECTS

MUSIC GENRE CLASSIFIER

Main project
Web application developed using python Flask and by implementing machine learning where user can detect their genre of their piece of music and also they can use it as their music player
Python Flask, Machine learning, python, HTML, CSS, SQL,Spotify API, JavaScript

MY RESTAURANT APP

Mini project

Android Application which aims to reduce paper-oriented works inside any Restaurant which helps to increase the customer satisfaction

Android studio, Java, PHP, MySQL

MCQ APPLICATION

Mini Project

Java project built using Swing framework which attempts to cover most of the activities in a MCQ System

Java Swing, Java, MySQL

MICROFINANCE MANAGEMENT SYSTEM

Main Project - Degree

A System containing both Android and Web Application which aims to help and Automate Microfinance Centers

Android studio, .NET, Java , HTML, MySQL, Jquery, JavaScript

WORK EXPERIENCE

COGNIZANT TECHNOLOGY SOLUTIONS

Coimbatore

NOV 2019 – SEP 2021

- System and Integration Testing of Web Applications
- Test Scenario Design and Test Case Preparations, Execution with Defect Management
- Automation script Execution, monitoring and Maintenances
- Preparation of Daily status Report and Test Closure

SKILLS AND INTERESTS

TECHNICAL :

Python , Java, C , HTML, Css, JavaScript, Mysql Database

SOFT SKILLS :

Communication, Determination, Adaptability, Keen to Detailing, Self Learning

AREAS OF INTEREST :

Web Development, Android Development, Machine Learning, Data Science

ONLINE COURCES

Python and Flask Demonstrations Practice Course

Completed Course on Python and Flask Demonstrations Practice Course offered by Udemy

Introduction into Programming in C

Completed course on Introduction into Programming in C Offered by NPTEL

Software Testing

Course Completed on Software Testing Offered by NPTEL

LANGUAGES

- **Malayalam** (Native)
- **English** (read, Write, Speak, Hear)
- **Tamil** (speak, Hear)
